# IPR Last Calls

## IPR Last Calls

### Idea

- Mention the IPR status (not known/known)
- Recommended in WG LCs, mandatory in IETF LCs
- If an IETF document would not be otherwise LC'd, must do it now
  - Read: WG Informational/Experimental documents w/ known IPR

### Justification

- It seems to make sense to raise the awareness
- Especially for those who might IPR as a problem
- Should facilitate earlier consideration of IPR, if appropriate
- Downside: could create FUD w/ bogus claims

### Way forward

- July14 experiment?
- Drop the idea?
