UDP Convergence Layer LTP and Bundle Protocol

- -00 draft to be formally posted right after IEFT73
- Questions:
  - Bundle Protocol over UDP, why?
    - Does native UDP as a convergence layer meet "pseudo-reliable" assumption?
      - Ack & Retransmission?
    - Fragmentation?
  - UDP
    - Checksum could fail, security extensions?
    - Congestion Control
