Protocol

IETF ForCES WG

Documents Need to be completed

- Applicability statement (Informational)
  - We should get this out before SF
- TML (Proposed Standard)
  - SCTP TML in progress
  - Need to get done +/- SF
- Formal definition of controlled objects
  - We need to define a few LFBs (Informational)
    - Scope will need discussion with ADs

Whither ForCES?

- 3 core drafts hopefully published by SF
- Applicability statement
  - To be re-released soon after IETF73
- TML needed by Interop time
- Interop before Stockholm
- Some basic LFBs (Informational)
- Implementation report
- Any New Work is out of scope
