

packetbb, timetlv, nhdp, OLSRv2 Update

Various proper subsets of:

T.Clausen, C.Dearlove, J.Dean, P.Jacquet, C.Adjih

draft-ietf-manet-packetbb-17

draft-ietf-manet-packetbb-17

- -13 to -17:
 - explicit address length in msg header, no extra bits used
 - removed constraints (5.4.2)
if required, belongs in protocol specifications
 - clarified multiplexing/demultiplexing, intended usage
 - clarified handling of malformed packets/messages

draft-ietf-manet-packetbb-17

- -13 to -17:
 - explicit address length in msg header, no extra bits used
 - removed constraints (5.4.2)
if required, belongs in protocol specifications
 - clarified multiplexing/demultiplexing, intended usage
 - clarified handling of malformed packets/messages
- Status
 - I I yes/no-objection, **one discuss**
 - believe discuss to be resolved in -17, **awaiting AD review**

draft-ietf-manet-timetlv-08

draft-ietf-manet-timetlv-08

- Clarifications:
 - reporting durations, not absolute time
 - expanded motivation and rationale
 - added security considerations

draft-ietf-manet-timetlv-08

- Clarifications:
 - reporting durations, not absolute time
 - expanded motivation and rationale
 - added security considerations
- Status:
 - approved, added to RFC Editors Queue
 - source xml sent to RFC Editor
 - awaiting **draft-ietf-manet-packetbb**

draft-ietf-manet-nhdp-07

- Changes:
 - none - focus on packetbb/timetlv since IETF'72
- Plans for -08:
 - roll in `packetbb` changes
 - revisit rationale/explications/motivations for clarity
 - learn from `packetbb/timetlv` IESG feedback
 - minor nits, editorial

draft-ietf-manet-olsrv2-07

draft-dearlove-olsrv2-metrics-03

- Changes:
 - none - focus on packetbb/timetlv since IETF'72
- Plans for -08:
 - roll in packetbb, nhdp changes
 - learn from packetbb/timetlv IESG feedback
 - minor nits, editorial
- Plans for -09:
 - fold in metrics-03
