IETF 73 OPSEC WG

Joel Jaeggli
11/18/08

Agenda

- Agenda Bashing (2 Min)

- Status update (5 Min)

- Fernando Gont (20 Min)

  - http://tools.ietf.org/html?draft=draft-gont-opsec-ip-security

  - http://tools.ietf.org/html?draft=draft-ietf-opsec-icmp-filtering

  - ICMP filtering: get consensus on the structure of the document (before it's too late!)

  - Discuss having IP security document adopted as an opsec wg item

- Gaurav Agarwal for Manav Bhatia and Vishwas Manral (20 Min)

  - http://tools.ietf.org/html?draft=draft-ietf-opsec-routing-protocols-crypto-issues

  - http://tools.ietf.org/html?draft=draft-bhatia-manral-igp-crypto-requirements

- Joel Jaeggli (10 minutes)

  - http://tools.ietf.org/html?draft=draft-kumari-blackhole-urpf-02

- Conclusions

Status

- Opsec recharter taken to IESG by Ron Joe

- Working group's first documents accepted under the new charter in Dublin

Fernando Gont

- http://tools.ietf.org/html?draft=draft-ietf-opsec-icmp-filtering
  - Consensus to accept as a working group document in Ireland confirmed on list.

- http://tools.ietf.org/html?draft=draft-gont-opsec-ip-security
  - Circa 08/25 discussion mixed fairly positive

Gaurav Agarwal

- http://tools.ietf.org/html?draft=draft-ietf-opsec-routing-protocols-crypto-issues

    - Consensus on list on 10/10 no opposition

- http://tools.ietf.org/html?draft=draft-bhatia-manral-igp-crypto-requirements

    - Some opposition to document in it's current form

    - Generally favorable to the idea of housing the document as a set of recommendations or a BCP

- Both of these documents need feedback

Joel Jaeggli

- http://tools.ietf.org/html?draft=draft-kumari-blackhole-urpf-02

    – Warren Kumari produced a second iteration of the blackhole urpf document

    – Incorporates feedback for list against first version.

    – Looking for consensus to accept as a working group document.

Other Documents

- Michael Behringer's rpsec bgp session requirements draft

- http://tools.ietf.org/html/draft-ietf-rpsec-bgp-sess

  - Presented in ireland, discussed in opsec

  - Opposition to taking on requirements work in Opsec

- Warren Kumari

  - Studying the idea of standardized blackhole community follow-on to the 3882 update.
