```
IETF IP Storage (ips) Working Group
San Francisco Meeting, March 16-21, 2003
------------------------------------------

CHAIRS:
        David L. Black <black_david@emc.com>
        Elizabeth Rodriguez <ElizabethRodriguez@ieee.org>

AGENDA: SUBJECT TO CHANGE

Announcement:  The IPS WG's work program is close to complete.
        Most WG drafts have completed WG Last Call and are NOT listed
        on this agenda for that reason.

---- Tuesday, March 18, 1415-1515 ----

- Agenda Bashing and Administrivia (10 min)
        - BLUE SHEETS
        - NOTE WELL
        - Status of drafts

- iSCSI boot (15 min) draft-ietf-ips-iscsi-boot-09.txt
        Discussion of security issues raised by the IESG.

- iSCSI NAA naming (15 min) draft-ietf-ips-iscsi-name-ext-00.txt
        Discussion of what to do with this draft based
        on T10's actions the week prior to this meeting.

- iSCSI command ordering (10 min) draft-chadalapaka-command-ordering-00.txt
        A candidate for publication as an informational RFC to
        explain the subtleties of this area, if the WG approves.

- Any other business/questions (time remaining)

DESCRIPTION:

        The IP Storage WG works on using IP-based networks to transport block storage
        traffic.  See http://www.ietf.org/html.charters/ips-charter.html
