August 5, 2003

Changes made in this revision

- ENRP (v07 -> v08):

    - Stable and not major tech changes

    - Bug fixes:

        - ✓ PEER_PRESENCE message - length field to variable

        - ✓ PEER_NAME_TABLE_RESPONSE message - switched position of M and R flags for better consistency

        - ✓ PEER_NAME_UPDATE message - repositioned Update Action field for better consistency

        - ✓ Section 4.2.1 - fixed a copy-paste error

    - New boilerplates

Remaining To-Do's

- Take out multicast reliance (only use multicast for announcements)

- We start getting feedback from implementation folks for minor corrections and suggestions. Will continue to make corrections and enhancements based on the feedback received.

- Continue to enhance the use of terminology (i.e., some clean-ups) and text quality.
