Presenter
Jim Bound

draft-ietf-v6ops-ent-analysis-03.txt

Jim Bound (Editor), Yanick Pouffary, Tim Chown, Dave Green, and Steve Klynsma

Changes from draft 02 to 03

- Fixed more IETF id-nits.

- Added Section 8.4 Transition Mechanism Summary analysis.

- Still have one more id-nit to fix on a few line lengths.

Section 8.4 Summary

- Overview of the following mechanisms potential use within the Enterprise and status in the IETF.

  - Manual Configured Tunnels

  - 6to4

  - ISATAP

  - Teredo

  - Tunnel Broker

  - DSTM
