

SIDR BOF

10 November 2005

sidr@ietf.org

(sidr-request@ietf.org)

Agenda

1. Scribe Victimization and Agenda Bashing
2. Overview and Current Status [15m]
3. Current Protocol and Design Work [40m]
4. Description of Proposed Work [15m]
5. Discussion [50m]

Of course, you have all read...

(Or are at least familiar with) the following documents:

Requirements:

- <http://www.ietf.org/internet-drafts/draft-ietf-rpsec-routing-threats-07.txt>
- <http://www.ietf.org/internet-drafts/draft-ietf-rpsec-bgpsecrec-03.txt>

soBGP:

- <http://www.ietf.org/internet-drafts/draft-white-sobgp-architecture-01.txt>
- <http://www.ietf.org/internet-drafts/draft-ng-sobgp-bgp-extensions-01.txt>
- <http://www.ietf.org/internet-drafts/draft-weis-sobgp-certificates-01.txt>

sBGP:

- <http://www.net-tech.bbn.com/sbgp/sbgp-index.html>

psBGP:

- http://www.scs.carleton.ca/research/tech_reports/2005/download/TR-05-08.pdf

Overview and Current Status

- ADs
- Tony Tauber (channelled by Geoff Huston)

Current Protocol and Design Work

- soBGP – Russ White
- sBGP – Steve Kent
- psBGP – Marcus Leech

Description of Proposed Work

- ADs

Discussion

- Russ White (5m)
- Sandy Murphy (5m)
- You
