draft-ietf-netmod-yang-usage

Andy Bierman
ietf@andybierman.com

Changes from -07

- Added intro text about YANG

- I-D authors instructions changed from WEB link to RFC references (2223, 5741)

- Module name uniqueness guaranteed by IANA

- Expanded <CODE BEGINS> example

- Added security guidelines text for RPC operations

Issues

- Should security guidelines be moved from ietf.org inside this document

  - [not in draft now]

  - [SNMP experience is that this needs to be updated over time]
