

The HIP Architecture 4423-bis

Robert Moskowitz

Innovation Group

March 31, 2011

rgm@labs.htt-consult.com

Purpose of this presentation

- An update on HIP Architecture progress
 - Status of Draft
 - Next steps
 - WG last call

Status of Architecture

- Minimal changes
- Pekka Nikander resigned as co-author
 - I want to personally thank Pekka for all he did in the early years to establish HIP.
- Much 'in the future' text removed.
- Added Host Identity Hash
- Added MAC Security section
- Small changes to Security Section

Next Steps

- Capture changes in Changes section!
 - I guess I really need to run diff...
- Do we need discussion of HITs versus Random 128 EIDs?
 - BackToMyMAC
- Ready for WG last call?
