---

- Many comments received
- All comments can be worked out
- Two of them are considered to be major

## Major comments in draft-ietf-pcn-encoding-comparison-04

---

- Major comment 1: remove all text from Section 6 and refer to the security implications section given in [RFC5559]
- Major comment 2: the appendix to be removed and replaced by a comment:
  - "A longer discussions of the issues and some further encoding options that were considered can be found in the Appendix of [ref] (a pre-RFCversion of this document)

# Next steps

---

- WG chairs proposed to go to for abbreviated WGLC after editing and submitting draft
