- Submitted February 2014
- Main Changes:
  - Dropped reverse DNS requirement
    - (as of discussion during 88th IETF)
  - Dropped minimum allocation requirement
    - (as of discussion during 88th IETF)
  - Section 7 new title: Policy Validity Period
    - Just reminder to draft-ietf-lisp-block-08.txt
    - Purpose: clearly state the period during which the policies apply
  - Provide full EID Prefix Request Template

# draft-ietf-lisp-mgmt-01.txt

- Next steps:
  - Update ID deleting the very last paragraph of Section 4
    - Relic of previous version of the ID and in contradiction with requirement 4
    - (Thanks to Geoff Huston for pointing out the issue)
- Next Next Steps: Ready for WG LC?
