

draft-ietf-v6ops-pmtud-ecmp-problem

Joel Jaeggli  
5/21/2015

# What's new

- Accepted as a working group document
- Editorial scrape.
- Some useful commentary on the previous version.

# Problems

- There are other implementation variations
  - seen in the wild (cloudflare)
    - <https://blog.cloudflare.com/path-mtu-discovery-in-practice/>
  - with iptables
  - so on
- It's a mitigation, it's not substantive protocol work
  - Elsewhere
- Other causes of hashing failure (then protocol / port number)

# Questions?

- Thanks!
