Q.6/15 would like to thank IETF's CCAMP Working Group for their Liaison Statement on Lambda Switch Capable Equipment, dated 27 May 2010, contained in TD 145 (WP2).

Q.6/15 would like to inform CCAMP that it was agreed that no change would be required to ITU-T Recommendation G.697 (with respect to the parameter encoding contained in Appendix V) in response to CCAMP's decisions on the document "Generalized Labels for Lambda-Switching Capable Label Switching Routers".

Q.6/15 is looking forward to continuing the exchange of information with CCAMP on the topics of the revision of ITU-T Recommendation G.680 and CCAMP's activities.
