Thank you for providing the opportunity for us to review draft-ietf-mpls-tp-uni-nni-00.txt. This review was conducted both via email correspondence between the experts of Q12/15 and at the Berlin experts meeting.

We support the approval of this text without modification and request that approval is expedited to allow us to make a normative reference to this draft from G.8110.1.

During discussion it was noted that the note on figure 2 (on page 6) caused some confusion. Removal of this note may be an improvement to the draft.
