Thank you for your liaison statement on GMPLS control of VCAT/LCAS dated September 5, 2008. We also thank Mr. Farrel for presenting the liaison statement at our Beijing Interregnum meeting.

At the moment we don't have comment on the -05 version of the GMPLS VCAT/LCAS I-D (draft-ietf-ccamp-gmpls-vcat-lcas). We are looking forward to text in future version of the I-D to clarify, as indicated in your response, that there are different name (or identifier) spaces even though they may all use the same IP address format.
