ITU-T Study Group 17 thanks the IETF EMU Working Group for its interest in and comments on our work on extensible authentication protocol based authentication and key management.

As a result of our discussions on revising Recommendation ITU-T X.1034, Question 2/17 developed the attached 2<sup>nd</sup> draft text of revised Recommendation ITU-T X.1034.

Our plan is to further update the draft revised X.1034 at the April 2010 SG 17 meeting and to initiate the approval process at the December 2010 SG 17 meeting. Therefore we would appreciate receiving your comments by end of March 2010.
