Thank you for your liaison statement (ref # 010.02) providing a list of the MPLS-TP drafts that are either completed or currently in progress. Attached is a table indicating our current view of the dependency between the ITU-T MPLS-TP Recommendations and these drafts.

We would appreciate an update on the status of the drafts and in particular confirmation that the drafts identified as being required for normative references for the consent of Recommendations in June 2010 will be available.
