19 **Re: Avoiding Conflicts between 3GPP2 and IETF Meetings**  
20  
21

22 Dear Mr. Narten,  
23  
24

25 With the growing dependencies between 3GPP2 specifications and IETF standards, more and  
26 more participants in 3GPP2 are also active in IETF. During 2003, there have been a couple of  
27 face to face meetings for 3GPP2 and IETF held during the same week. This scheduling conflict  
28 makes it difficult or impossible for individuals to attend both meetings.  
29

30 Attached is the 3GPP2 calendar of planned meetings for 2004. We hope that by communicating  
31 these dates to you, it may be possible to schedule IETF face to face meetings so that they do not  
32 conflict with 3GPP2. We appreciate any efforts the IETF can make to avoid conflicts.  
33  
34

35  
36 Thank you.  
37

38 Regards,  
39  
40

41 Tom Hiller  
42 3GPP2 IETF Liaison  
43

S	M	T	W	T	F	S	Location	Holidays	Notes
<b>JANUARY</b>							N. America	1 - New Year's Day 21 - 23 - Lunar New Year - Korea 22-30 - Spring Festival - China	<b>r3 modification:</b> The January TSG meeting had to be moved to the week of January 12-16 so as not to clash with the Chinese New Year celebrations continuing the week of January 26-30. Consequently, the first SC/OP meeting of 2004 has been moved to February.
