ITU-T Study Group 17 has started to discuss a contribution on "A decentralized architecture for global IP network name resolution system" as described in Attachment 1.

Study Group 17 has established a correspondence group to discuss the contribution in order to progress the work related to the contribution. The terms of reference of the correspondence group are given in Attachment 2.

SG 17 seeks comments from ITU-T SG 2 and SG 13, IETF DNSOP WG and SAAG, IAB and ICANN which have already carried out various studies related to this subject. We specifically seek your comments in order to efficiently establish our efforts without any overlapping situation with other bodies such as ITU-T SG 2 and SG 13, IETF DNSOP WG and SAAG, IAB and ICANN.

We would highly appreciate receiving your response latest by 31 October 2010.
