Subject: Call for contributions by IEEE 802 Executive Committee OmniRAN Study Group

Dear Colleague:

On 16 November 2012, the IEEE 802 Executive Committee chartered the OmniRAN Study Group (SG) to study an Open Mobile Network Interface for Omni-Range Area Networks based on IEEE 802 access technologies. The SG is chartered through 22 March 2013, with an expectation of renewal through 19 July 2013. The study group had its first meeting in the week of January 14th, 2013 in Vancouver, BC, Canada and will meet in the week of March 18th, 2013 in Orlando, USA.

For further information regarding the Study Group, I refer you to document <[omniran-12-0001-01-ecsg](#)>, which contains the proposal made to the IEEE 802 Executive Committee leading to creation of the Study Group, and to <[omniran-12-0002-02-ecsg](#)>, which contains additional high-level perspective. More detail is available at the SG web site <<http://ieee802.org/OmniRANsg>>.

I would like to call your attention to the Study Group's Call for Contributions on use cases for OmniRAN as provided by <[omniran-13-0006-00-ecsg](#)>, which also contains a recent update of the status.

Input contributions are welcome.

Sincerely,

Max Riegel

Chair, IEEE 802 Executive Committee OmniRAN Study Group
