ITU-T Study Group 17, Security, is pleased to inform you of two items regarding big data security.

The attachments are the baseline text for ongoing work on draft Recommendation of ITU-T X.websec-7, *Reference monitor for online analytics services*, and the template of new work item X.srfb, *Security requirements and framework for Big Data analytics in mobile Internet services* that was established at our September 2016 meeting.

We are looking forward to further collaboration with you on those items.
