ITU-T SG17 is pleased to inform you of the progress of SDN security work in its Q2/17 and Q6/17.

We are currently developing two SDN-related work items: X.sdnsec-1 and X.sdnsec-3. X.sdnsec-3 was established at the March 2017 SG17 meeting.

In the spirit of our continuous and ongoing collaboration, we look forward to your feedback and further collaboration.

Attachments:

- Revision of draft Recommendation X.sdnsec-1: Security services using the software-defined networking ([TD 336](#)).
- New work item of X.sdnsec-3: Security guideline of Service Function Chain based on software defined network ([TD 335](#)).
