Keywords: Cloud computing; Recommendation; Standard; Roadmap

Abstract: Document invites to review the current version of Supplement on Cloud Computing Standardization Roadmap and to provide missing/updated information to the ITU-T SG13

ITU-T SG13 is developing Supplement Y.sup.ccsr (Supplement on Cloud Computing Standardization Roadmap) which is to be used for coordination on Cloud Computing-related activities of ITU-T SGs and other SDOs. For this purpose, it is necessary to collect all the information from ITU and other SDOs including their understanding of Cloud Computing and relation of their work with Cloud Computing.

Your SG/organization is invited to review the current version of ITU-T Y.sup.ccsr (of Geneva 6 - 17 February 2017 meeting) and provide the missing/updated information to the ITU-T SG13 secretariat (tsbsg13@itu.int), and editors (chan@etri.re.kr, hexw@gsta.com). Please review/update following content:

- Introduction texts to SDO
- Information of SDO's deliverables
- Analysis of deliverables base on analysis template in form of matrix table (Table 7-1)

Attachment:

The update of draft Supplement ITU-T Y.sup.ccsr, “Supplement on Cloud Computing Standardization Roadmap” (Geneva, 6 - 17 February 2017).
