Abstract: This liaison announces the planned to initiate the approval process of Amendment 1 to Recommendation ITU-T G.8121/Y.1381.

ITU-T SG15 wishes to inform the IETF MPLS WG of our intent to initiate the approval process for the following document related to MPLS-TP at the December 2023 plenary meeting of Study Group 15:

- Amendment 1 to Recommendation ITU-T G.8121/Y.1381 *Characteristics of MPLS-TP equipment functional blocks*.

This amendment adds an alternative mechanism for mapping MPLS-TP packets to OTN and includes editorial updates. The current draft of this amendment is attached.

The next meeting of ITU-T SG15 Question 10 is in Geneva, Switzerland, 20 November – 1 December 2023.

Attach:

- Draft Amendment 1 to Recommendation ITU-T G.8121/Y.1381 ([SG15-TD181/WP3](#)).
