

# IETF Venue Assessment Report: Brisbane, Australia

This is a recommendation made by the IETF Executive Director with respect to the appropriateness of Brisbane as a viable location for an IETF meeting, based on the assessment made by the IETF Secretariat of mandatory and important criteria taken from the requirements documented in RFC 8718<sup>1</sup>.

## Recommendation

This is a **preliminary recommendation** made on 1 June 2021 prior to community feedback.

Based on the assessment below of the conditions for hosting an IETF meeting in Brisbane the recommendation is that Brisbane be approved on a qualified basis (re-visit Travel Advisory Level, Criterion 4.1) as a potential location for an IETF meeting.

## Classification system

This assessment uses the following classification system for each criterion:

Assessment	Indicator	Methodology
Met		Each test is applied on a <u>country</u> , <u>city</u> or <u>venue</u> basis. For some, local level exceptions may be considered. Some tests use an external source with no IETF LLC judgement. Others require the
Uncertain but possible
