draft-ietf-bess-evpn-vpls-seamless-integ-01.txt

A. Sajassi (Cisco), S. Salam (Cisco), N. DelRegno (Verizon), J. Rabadan (ALU)

IETF 101, March 2018

London

History & Status

- draft-sajassi-l2vpn-evpn-vpls-integration-00 was presented at IETF 88 (Nov/2013) in Vancouver

- It was adopted as WG draft in March 2015

- Rev01 is just a refreshed with minor edits

Status

- It described how evpn & pbb-evpn can interop with vpls/pbb-vpls seamlessly – i.e., how they can be introduced into brownfield deployments

- It has been implemented by major vendors & has been in deployments

- Requested for WG LC last month
