# Changes in version 05

- Newly-specified option 0x23 incorporated:
  - Specified in draft-ietf-roll-useofrplinfo
  - Packets with this options should not be dropped
- Changes applied to the I-D:
  - A section on option 0x23 was added
  - Option 0x63 (replaced by 0x23) updated accordingly
- Minor change, document stable and ready to ship!
