Concise Software Identifiers

draft-ietf-sacm-coswid

Status

- Draft -06 posted in July 2018
- Changes include:
  - Numerous CDDL model improvements
    - Added enumerations for registered values
    - Added extension points
    - Minor refactoring
  - Improvements to the firmware extension
- Draft is nearing being ready for WGLC

Work to be done

- Remove the firmware extension
  - Now draft-birkholz-suit-coswid-manifest-00
- Add IANA registrations for use and ownership enumerations
- Cleanup CDDL-related documentation

A new draft can be posted by the end of August for consideration for WGLC.
