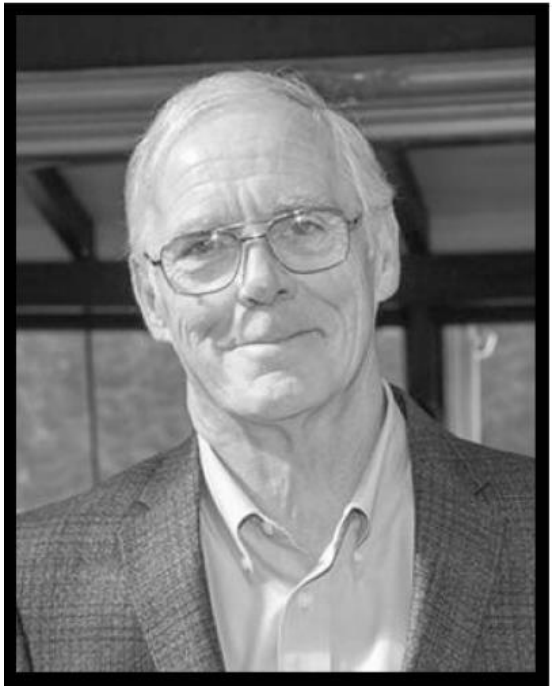
Keith McCloghrie



- Part of the “gang of four” that designed SNMP
- Gentleman and Engineer
  - “I worked with Keith a lot. He was my #1 favorite IETF guy, easy to work with, exceptionally competent, hard working, and totally reliable, always the gentleman. It was Keith that pulled me through the door into Cisco, changing my life.”
    - Bob Stewart
  - “Keith was a tireless contributor at all levels in the organization: architect, author, editor, chair, and advisor to directors.”
  - “The community was diminished when he moved onto other pursuits, and that all of his colleagues are saddened by his passing.”
    - Marshall Rose
  - “We knew the document was in good hands if Keith was the editor.”
    - Andy Bierman
