

Sieve-Mailboxid

IETF108 Madrid (virtual)

July 30 2020

Bron Gondwana <brong@fastmailteam.com>

What it does

- Adds “mailboxid” require option
- Adds “:mailboxid” parameter to fileinto
- Adds “:mailboxid” parameter to everywhere
“:fcc” can be used.

Status

- Implemented in Cyrus IMAP for a couple of years, in use.
- Spec unchanged other than text clarifications in that time.
- Adopted into working group just now due to slackness on my part.

Plan

- Working group last call now – don't think there's anything left to add!
