What we need... is you!

Nominate yourself

Nominate someone else (because you think they're qualified and would be awesome at the job)

Provide feedback on nominees

We aren't just some random group of people; we're *your* random group of people. The NomCom is here to represent the community's views, perspectives, and wishes in selecting its leadership. We can't do that without a great set of nominees and lots of community feedback.

IETF 109 Office Hours (which we expect to schedule for 2 weeks prior and the week of IETF 109).

**Let's make this year special
-- in a good way**

What I'd like to see:

More nominees than ever before

More feedback than ever before

More diversity (industry, age, geography, ethnicity, gender, language, socio-economic status -- whatever you think is missing or under-represented) than ever before
