JMAP Quotas

draft-ietf-jmap-quotas-01

Rene Cordier <rcordier@linagora.com>
JMAP IETF08 meeting July 2020

Last changes (1)

- quotaIds:

  - moved from 'Mailbox' object to additional account's capability "urn::ietf::params::jmap::quota" as a property

- Scope:

  - Reduced to only one scope field

- Datatypes:

  - Added an array to extend the objects that can benefit from Quotas

Last Changes (2)

- Quota/query:

  - Added "/query" and "/queryChanges"

- Quotas/changes:

  - Added an "updatedPropertieds" field, as "used" might be the only frequently changed property in quota

- Push:

  - Added the push notifications for Quota state change

Last changes (3)

- Description:
    - Added a "name" field for Quota
- Soft vs hard limits:
    - Added "softLimit" and "warnLimit" as optional fields
- ResourceType:
    - Only need types like "count" or "size"
    - Datatypes are covering objects we measure
    - Should Byte be the only allowed unit for "size"?
