

# Authentication Subgroup

- Mark Stevens
  - markstevens@lucent.com
- Michael Jeronimo
  - michael.jeronimo@intel.com
- Ricky Charlet
  - rcharlet@redcreek.com

# Approach

- Examine current authentication technologies
  - Security area participant input welcome
- Outline the authentication requirements of a good sample of applications
  - Solicit input from application area working groups
- Correlate various authentication methods with the requirements of various applications
- Evaluate existing protocols and authentication mechanisms to assess fit
- Publish informational document detailing findings

# Help!

- Authentication expertise needed
- Applications area participants
- Security area participants
