

Message Context for Internet Mail

Eric Burger

Emily Candell

Charles Eliot

Graham Klyne

50th IETF VPIM WG

Changes From -01

- Better job describing context
- Better examples / removed controversial
- Moved “why we don’t depend on context” to description of message-context
- Fixed ABNF
- Removed video-message
- Added multimedia-message
- Better definition of text-message
- Cleaned-up IANA registration section

Plans for -06

- Point out SMS not just one-way (upset handset manufacturers)
- Update my phone number
- Put in real IANA registration address

Next Steps

- What is IANA registration address?
- Set-up IANA registrations and list
- Submit –06 for WG Last Call

Thanks!
