

Advice to link designers  
on link Automatic Repeat reQuest (ARQ)

draft-ietf-pilc-link-arq-issues-02.txt

**Authors:**

Gorry Fairhurst (Univ Aberdeen, UK)

Lloyd Wood (Cisco Systems Ltd, UK)

**New Title**

---

**Draft -02 : Jul 2001**

Advice to link designers on  
link Automatic Repeat reQuest (ARQ)

Designed to reflect relationship to “LINK Advice ID”

Type: INFORMATIONAL

# Revisions since last IETF

---

## Draft -02 : Jul 2001

Incorporated feedback to list / authors

Revised "perfect persistence (reliable)"

Added "MAC issues"

Various changes to clarify wording

Many comments received

(~40 different issues)

-- thanks!!!!

# Perfect Persistence

---

New text in latest ID

Unlimited / High Persistence

Not designed to give specific persistence

Give up for other reasons

-some side effects: may discard, may lose state

# Planned Action after IETF-51

---

Would like to now reissue to fix known Nits

Proceed to a WG last call?
