Smart Notification and Alarm Protocol (SNAP) draft-shapira-snap-04
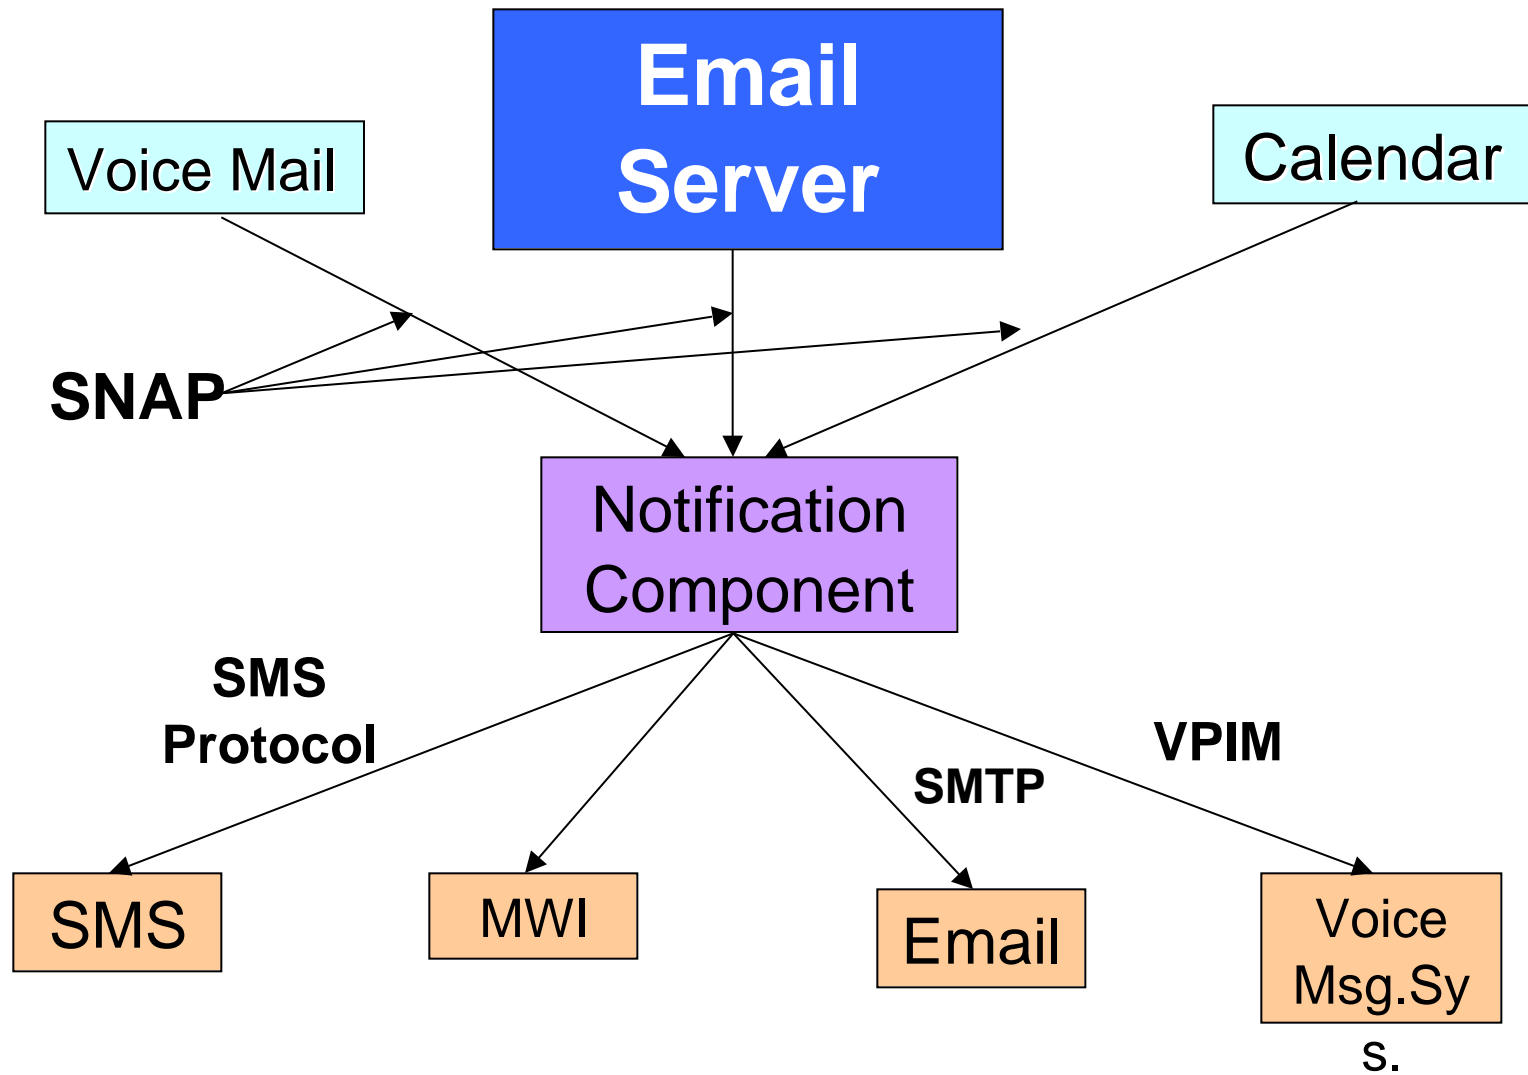

IETF-54 Update

Ari Erev

Noam Shapira

July 16, 2002

Top Level View

Changes in the current version

- Removed: Attachments support
- Added: a pre-defined (non-standard) port for SNAP
- Added: a new counter – Total-Message, Total-New-Message and Total-New-Urgent-Message
- Added: Mailbox-Name (folder name)
- Some typos (as given by the mailing list)

What next?

▪ Complementary work with IANA (register the new port + new MIME type).

▪ WG Last call
