

# IPv6 Working Group

IETF60 San Diego

August 2004

Bob Hinden & Brian Haberman

Chairs

# Meeting Agenda

---

- |  |           |            |
|--|-----------|------------|
| • Introduction, Agenda Bashing, Document Status  | Chairs    | (5 min)    |
| • IPv6 Plugtest Announcement                     | Guillemin | 5 minutes  |
| • DNSOP WG Update                                | Meyer     | 5 minutes  |
| – draft-ietf-dnsop-ipv6-dns-configuration-02.txt |           |            |
| • DNS configuration (RA option)                  | chairs    | 10 minutes |
| • 2461bis  | Soliman   | 10 minutes |
| – draft-soliman-ipv6-2461-bis-01.txt             |           |            |
| • 2462bis  | Tatuya    | 10 minutes |
| – draft-ietf-ipv6-rfc2462bis-02.txt              |           |            |
| • ICMP Updates                                   | Gupta     | 15 minutes |
| – draft-ietf-ipngwg-icmp-v3-03.txt               |           |            |
| • Optimistic DAD                                 | Moore     | 10 minutes |
| – draft-ietf-ipv6-optimistic-dad-01.txt          |           |            |
| • M&O Flags in RA's                              | Park      | 5 minutes  |
| – draft-daniel-ipv6-ra-mo-flags-00.txt           |           |            |
| • Hop by hop options                             | Krishnan  | 10 minutes |
| – draft-krishnan-ipv6-hopbyhop-00.txt            |           |            |
| • Anycast Analysis                               | chairs    | 5 minutes  |
| – draft-ietf-ipngwg-ipv6-anycast-analysis-02.txt |           |            |
| • IPv6 over PPP update                           | Conta     | 10 minutes |
| – draft-ietf-ipv6-over-ppp-v2-01.txt             |           |            |
| • Link-scoped Multicast                          | Shin      | 10 minutes |
| – draft-ietf-ipv6-link-scoped-mcast-04.txt       |           |            |
| • IPv6 over WLAN/802.11                          | chairs    | 10 minutes |

# DOCUMENT STATUS

---
