

IPv6 Working Group

IETF 63 Paris

2 August 2005

Bob Hinden & Brian Haberman
Chairs

Meeting Agenda

- | | | |
|--|------------|------------|
| • Introduction, Call for Scribes, and Agenda Bashing | Hinden | 05 minutes |
| • Document Status | Haberman | 05 minutes |
| • Call Implementation Reports for RFC 2472 & RFC 3041 <ul style="list-style-type: none">- Goal: Call for implementation reports | Haberman | 05 minutes |
| • IPv6 Node Information Queries <ul style="list-style-type: none">- Goal: Close open issues- draf-ietfipngwg-icmp-name-lookups-12.txt | Haberman | 10 minutes |
| • IPv6 Address Allocation to End Sites <ul style="list-style-type: none">- Goal: Discussion- draf-narten-ipv6-3177bis-48boundary-00.txt | Narten | 20 minutes |
| • URI Syntax <ul style="list-style-type: none">- Goal: Make decision to adopt proposal- draf-fenner-literal-zone-01.txt | Fenner | 10 minutes |
| • Considerations on M and O Flags of IPv6 Router Advertisement <ul style="list-style-type: none">- Goal: Resolve open issues with draf- draf-ietfipv6-ra-mo-flags-01.txt | Park | 15 minutes |
| • IPv6 over IEEE802.16 <ul style="list-style-type: none">- Goal: New draf, Initial Discussion- draf-jin-ipv6-over-ieee802.16-00.txt | Kim | 10 minutes |
| • Network discovery and spoofing detection <ul style="list-style-type: none">- Goal: Introduction to drafts- <draf-pashby-ipv6-detecting-spoofing-00.txt>- <draf-pashby-ipv6-network-discovery-00.txt> | O'Donoghue | 10 minutes |
| • Distributing Default Address Selection Policy using DHCPv6 <ul style="list-style-type: none">- Goal: Discussion- draf-fujisaki-dhc-addr-select-opt-00.txt | Fujisaki | 10 minutes |
| • Next Steps for IPv6 w.g. Advancing core specification to Standard <ul style="list-style-type: none">- Goal: Discussion | Hinden | 15 minutes |

Document Status

- Document status summary posted at:

<http://www.innovationslab.net/~brian/IETF63/IPv6/IPv6DocumentStatus.html>

- Comments / questions?
