NFSv4 @ IETF63

Spencer Shepler

NFSv4 June Bakeathon 2005

- Testing good

- Lot's of it

- No major issues found

- One or two new participants

- Next Bakeathon planned for week of Oct 24th in Austin

- Continue? Seems to be of value!

NFSv4 Minor version 1

- Current content: SECINFO, Sessions, Directory Deleg

- Where is it?

  - Editor's excuse is moving to new xmlrpc formatting

- Current schedule is to have -00 draft submitted Sept 6th

- Some motivation material will be stripped for -00

- XDR file will be provided

- Will eventual NFSv4.1 I-D contain 4.0 as well? Unknown

WG Milestones

- API Advancement draft (remove)

- Migration / Replication (server-to-server remove?)

- Various MIB work (remove?)

- NFSv4 interop test document (appropriate timing?)

WG Milestones (cont)

- NFSv4 DNS RR (WG item?)

- NFSv4 Minor Version 1 (I-D delivery, prototypes)

- NFS/RPC/RDDP (next steps ...)

- NFS Referrals
