

Overview of the Internet Multicast Routing Architecture

draft-ietf-mboned-routingarch-02.txt

Pekka Savola, CSC/FUNET

Changes

- After -00 (April 2005)

- Explain why bi-dir doesn't work in Interdomain
- Tweak bidir-pim's description

- After -01 (Oct 2005)

- Note that MP-BGP SAFI=3 has been deprecated

- The document has been very stable

- Is the document just perfect? :-)
- Wait for or solicit more review or WGLC?
