# The *Tao* has Changed a Lot

- Now incorporates Paul's "Novice's Guide to the IETF"
- Paul added a lot of text about WGs, I-Ds/RFCs, IPR, etc.
- Up-to-date info about IETF's new administrative structure, tools, EDU Team, PROTO process
- New Appendix lists the PESCI team's principles underlying the IETF

# We Need Your Input

- Additions, subtractions, corrections, retractions, gripes, and beefs are welcome

- PLEASE let us know what you think about the Tao

- If you know a first-time attendee, tell them about the Tao

# Acknowlegements

- Eternal gratitude goes to original author **GARY MALKIN.** Paul and Susan are often funny in person but were not always able to replicate Gary's unmatched writing style and sense of humor
- Brian made extensive edits, fine-tuned the whole doc
- Elwyn Davies from the PESCI team helped with principles
