# RADIUS Delegated-IPv6-Prefix Attribute

`draft-ietf-radext-delegated-prefix-00.txt`

Ralph Droms, `rdroms@cisco.com`

Joe Salowey, `jsalowey@cisco.com`

# Status Update

- Delegated-IPv6-Prefix carries an IPv6 prefix to be delegated to the user
- Accepted as WG work item, published as `draft-ietf-radext-delegated-prefix-00.txt`
  - Removed reference to Framed-IPv6-Prefix
  - Format based on Framed-IPv6-Prefix
- Discussion
  - Does not meet requirements of RFC 2865 or `draft-weber-radius-attr-guidelines-02.txt`
  - Format matches RFC 3162 (Framed-IPv6-Prefix)
  - Needs additional review for WG last call
