

# Generalized MANET Packet/Message Format

draft-ietf-manet-packetbb-08

T. Clausen, C. Dearlove, J. Dean,  
C. Adjih

# Status

- Since IETF68
  - Further modularized header
    - (hop limit/hop count, originator address/message sequence number)
  - TLV Subtypes added
    - not used in standard TLVs
    - motivation: link information
  - Examples appendix
- WGLC in progress (before IETF69)
