Route Optimization for Proxy Mobile IPv6

Christian Vogt
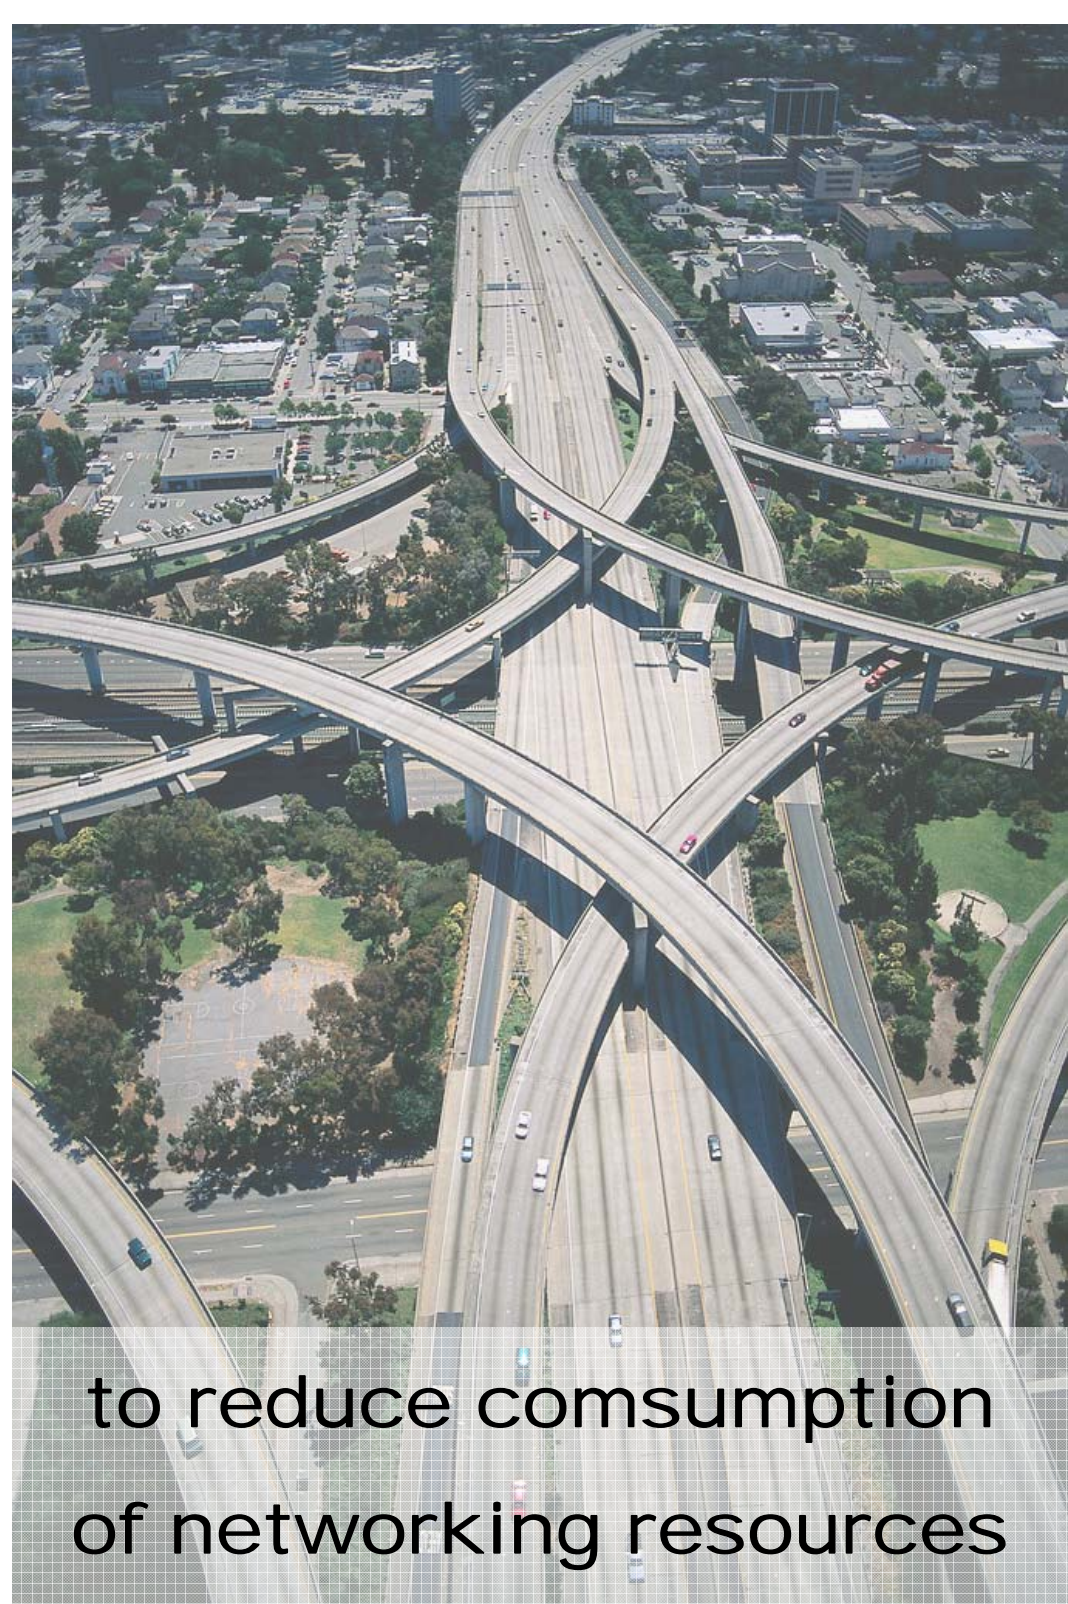

NETLMM working group meeting
IETF 70, Vancouver
December 2, 2007

to reduce comsumption of networking resources

Plenty Room for Optimization

Between mobile hosts…

- on same link

- on same mobile access gateway

- on same local mobility anchor

- in same Proxy Mobile IPv6 domain

- in different Proxy Mobile IPv6 domains

Common solution for v6 and v4

Solutions for P-MIPv6 and C-MIPv6 correspondents

Joint Efforts

- Sangjin Jeong

- Ryuji Wakikawa

- Marco Liebsch

- Long Le

- Shinta Sugimoto

- Behcet Sarikaya

- Alice Qin

- Jaehwoon Lee

- Christian Vogt
