

# SIEVE Mail Filtering WG

IETF 70, Vancouver  
December 3, 2007

WG Chairs: Cyrus Daboo, Alexey Melnikov

Mailing List: <<mailto:ietf-mta-filters@imc.org>>

Jabber: [sieve@jabber.ietf.org](jabber:ietf@sieve.org)

# Note Well

**Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:**

- the IETF plenary session,
- **any IETF working group or portion thereof,**
- the IESG or any member thereof on behalf of the IESG,
- the IAB or any member thereof on behalf of the IAB,
- any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices,
- the RFC Editor or the Internet-Drafts function

**All IETF Contributions are subject to the rules of BCP 78 and BCP 79.**

**Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice.**

**Please consult BCP 78 for details.**

# Agenda

- Document status review ( 5 mins)
- Notify IETF LC Comments ( 7 mins)
- Notify XMPPIETF LC Comments ( 8 mins)
- Notify Mailto Status (20 mins)
- IMAP Sieve (20 mins)
- Reject/Refuse (20 mins)
- Mime Loops (20 mins)
- XML representation for Sieve (10 mins)
- Notify SIP (10 mins)
- (120 mins)

# Working Group Status

- RFC Editor Queue:
  - 3028bis, 3431bis, IMAPFlags, 3598bis, Spamtestbis, Vacation, Variables
- IESG processing:
  - Body - Revised ID needed (IESG last call done)
  - Notify - Revised ID needed (IESG last call done)
  - Notify-mailto - Revised ID needed
  - Notify-xmpp - Revised ID needed (IESG last call done)
- Others:
  - Edit header
  - MIME Loop
  - Refuse/Reject
  - RegEx (expired)

# Notification Drafts

- See Alexey's presentation.

# IMAP-SIEVE

- Current: draft-ietf-lemonade-imap-sieve-04
- Not ours - part of lemonade - but should be reviewed by SIEVE participants

# Reject/Refuse

- New draft-ietf-sieve-refuse-reject-05.txt.
- Addressed all remaining issues agreed to previously.
- Minor editorial changes pending.
- Ready for WGLC?

# MIME Loops

- Current: draft-ietf-sieve-mime-loop-03
- WGLC completed.
- Several comments to the effect that the spec needed some significant re-writing.
- New draft required.

# MIME Loops Issues

- Clean-up non-7bit content handling. Re-use 3028bis text about utf8 conversion.
- Do we need all of ‘:type, :subtype, :contenttype’? Wouldn’t ‘:contenttype’ by itself be enough?
- Be explicit about depth-first looping.
- Use “current selected message” part to better describe targeted part.

# MIME Loops Bigger Issues

- Suggestion to completely change the way :mime works. Mark Mallett suggested a more compact form (Nigel Swinson also suggested changes there too). Should we adopt that?
- Suggestion to re-write to emphasize MIME bits over loops.
- Leave “selected part” selected outside of the loop (also requires a “reset part” action to set back to the top-level message)?

# XML Representation of SIEVE

- New: draft-freed-sieve-in-xml-00.txt
- Comments?

# Notify SIP

- See Alexey's presentation.

# Any Other Business

- Any other extensions to consider?
