Sieve Drafts

Ned Freed
Srinivas Saisatish Vedam

draft-freed-sieve-in-xml-03

- Defines an XML representation for Sieve scripts

- Intended to facilitate manipulation of Sieve using XML tools, not intended to replace existing representation

- XML and Relax NG schemata provided

- Sample stylesheet given to convert from XML to traditional sieve

Recent Changes

- Relax NG grammar added

- Schemata now allow material in other namespaces

- Corrected stylesheet handling of comments

- Better specification of structured comment convention

- Clarified that code reuse is allowed

Open Issues

- Ready for XML Directorate review and last call?

draft-freed-sieve-notary-06

- envelope-dsn extension adds the ability to check SMTP DSN extension information with the envelope test

- redirect-dsn extension adds DSN parameters to the redirect action

Recent changes

- Changed extension name from notary to envelope-dsn

- Added redirect-dsn extension

Open Issues

- Ready for working group last call?
