

# Design Guidelines

RADEXT - Interim

Alan DeKok  
FreeRADIUS

# Minor Comments

- Minor comments on the list about usage of the document
- Is the document practical?
- Does it reflect current practice?

# Guidelines

- The document contains no *MUST* or *MUST NOT* text
- Guidelines try to encourage good practice.
- Following guidelines slavishly is not good practice

# Changes from -08

- Clarification of tags
- Removal of 16-bit vendor types
  - BCPs should not define new things
- Reworded VSA recommendations
- Clarification of simple versus complex data types

# Data types

- Any later document can update this specification
