Ad Hoc
IP Addressing

draft-ietf-autoconf-adhoc-addr-model

GenArt & IESG Reviews

- GenART review: nits fixed.

- RFC 2119 vocabulary eliminated.

- Paragraph about why IPv4 and IPv6 are treated slightly differently.

- Applicability section altered slightly to scope the document better as suggested by the IESG.

Document Status

- draft-ietf-autoconf-adhoc-addr-model-03

- approved by the IESG.

- in the RFC editor's queue.
